This hour-long roundtable will explore current trends and changes happening in the Medicare and Medicaid space with the arrival of the new administration. Internet rumors and media coverage on the subjects have made it almost impossible to decipher fact from fiction. We will discuss the realistic changes, improvements and trends that we could see shape the future of the Medicare and Medicaid programs.
Location: Las Colinas

- 2:30 p.m. – 3:00 p.m.** **Break**

- 3:00 p.m. – 4:00 p.m.** **No Skin in the Game**
As our industry grapples with a patchwork of state provider directory legislation, it is becoming clear that legislators are missing a large piece of the provider directory conundrum. There is no incentive or penalty for inaccurate data coming from the providers in states like California and Illinois. As data fields and accuracy requirements become more extreme, how can we work with states looking to enact legislation to ensure everyone has a little skin in the game? Which states currently require participation from all involved parties? Is there a different way to think and source data verification?

Location: Las Colinas

4:00 p.m. – 5:00 p.m.

Just Say Nay on Pre-Pay

We are seeing a troubling trend in several states of instances where providers are requiring pre-payment to treat an injured worker, circumventing their network contracts. These providers are charging a premium that is often not paid off the claim file, bypassing having the cost included as an allocated lost adjustment expense (ALAE), and/or bypassing bill review and state reporting. This working roundtable will explore the implications and identify solutions to this growing problem.

Everything is Bigger in Texas

Recent reports have Texas becoming the largest state by 2045. Texas is already a major legislative and regulatory state for our member organizations, and this news reiterates that it will become even more pivotal in the future. We have organized a Texas focused workshop to better understand how we can work with the Texas Department of Insurance on hot button issues including air ambulance surprise billing and network outreach efforts for providers to become certified to conduct maximum medical improvement (MMI) and impairment rating (IR) exams. We will also explore how networks can work with non-subscriber/opt-out employers.

Participants:

Jeff Nelson, Commissioner, TDI, Division of Workers' Compensation
 Mary Landrum, Texas DWC Deputy Commissioner for Health and Safety
